Hazardous Weather

Hazardous Weather

Severe Thunderstorms Possible Tomorrow

Weather Forecast Office
Amarillo, TX
Issued Jun 25, 2020 3:47 AM CDT

Stay Weather Aware

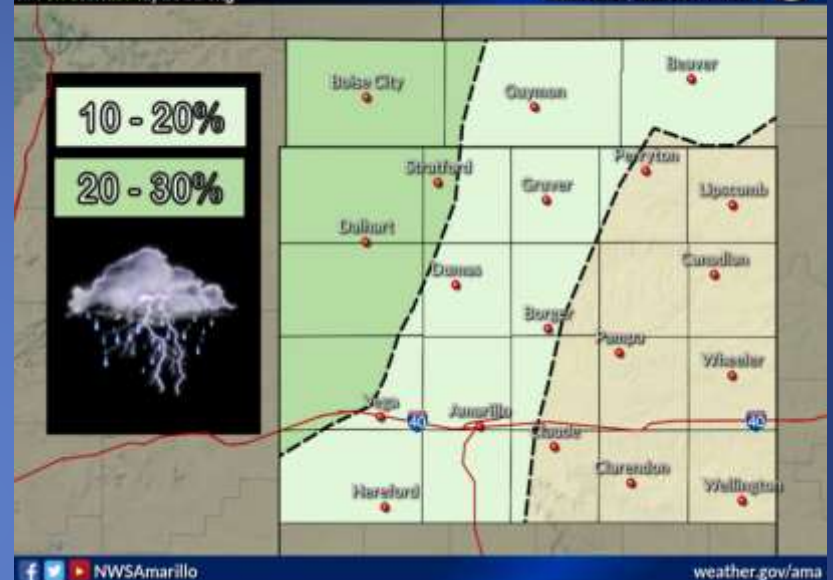

Severe thunderstorms will be possible tomorrow. Mainly between 1 PM and midnight. The main threats will be large hail and damaging winds. The threat for tornadoes is low. Please stay weather aware Friday afternoon.

This Evening

A Few Storms May be Strong

Weather Forecast Office
Amarillo, TX
Issued Jun 25, 2020 2:58 AM CDT

Chances for thunderstorms this evening mainly after 7 PM. Some storms may become strong with gusty winds and small hail. The severe threat is low.

Hazardous Weather

Scattered showers and thunderstorms will continue along and east of I-35 today with locally heavy downpours possible. Highs will range from the upper 80s across the Hill Country to mid 90s along the Rio Grande.

Showers and thunderstorms will be possible again on Thursday across parts of Southeast Texas. Locally heavy rainfall could develop if storms repeatedly pass over the same areas.

Hazardous Weather

Thunderstorms Again Today

Warm with Some Locally Heavy Rainfall

Weather Forecast Office
Corpus Christi, TX
Issued Jun 25, 2020 3:51 AM CDT

Some isolated convection will occur this morning, then chances for showers and thunderstorms will increase this afternoon, especially along the sea breeze.

Showers and Thunderstorms Tonight

Warm and Muggy Tonight, with Storms Possible

Weather Forecast Office
Corpus Christi, TX
Issued Jun 25, 2020 3:55 AM CDT

A warm and muggy night is in store for us with lows in the mid 70s. Showers and thunderstorms will continue through tonight.

Hazardous Weather

Some Flooding Expected in the RGV

Forecast Average Rain Totals through Friday, June 26th

Weather Forecast Office
Brownsville/RGV, TX
Issued Jun 25, 2020 7:48 AM CDT

Scattered to Numerous Showers/Storms

Locally Heavy Rainfall and Gusty Winds Possible with T'Storms

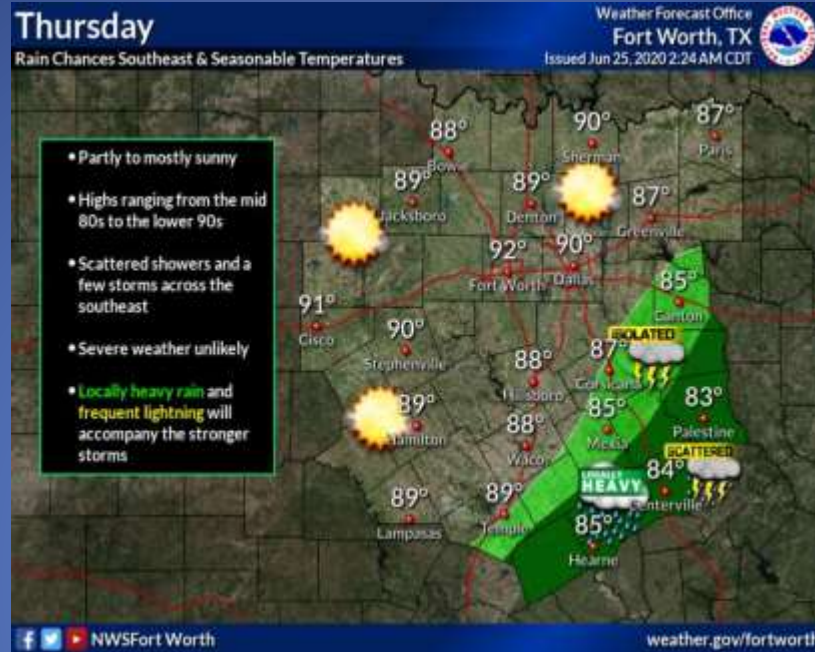

Weather Forecast Office
Brownsville/RGV, TX
Issued Jun 25, 2020 5:11 AM CDT

A series of upper level disturbances moving from south to north along the northeast Mexico/south Texas coast will bring showers and thunderstorms into Cameron, Willacy, and Kenedy County late this morning through afternoon, with additional heavy rains overnight that could spread into Hidalgo and Brooks County. Deep tropical moisture channeling northward could bring heavy rainfall for several hours. Should this occur over populated urban areas, flooding will follow. Have a plan to avoid roads that typically flood in the Valley, and plan to remain in a safe zone until any floodwaters recede. Turn around, don't drown!

Scattered to numerous showers and thunderstorms are expected today across Deep South Texas with the combination of a disturbance moving through in the mid-levels of the atmosphere and high moisture levels off the Gulf of Mexico. Locally heavy rainfall and gusty winds will be possible with thunderstorms. Additionally, minor flooding of low-lying areas to isolated flash flooding may be possible.

Hazardous Weather

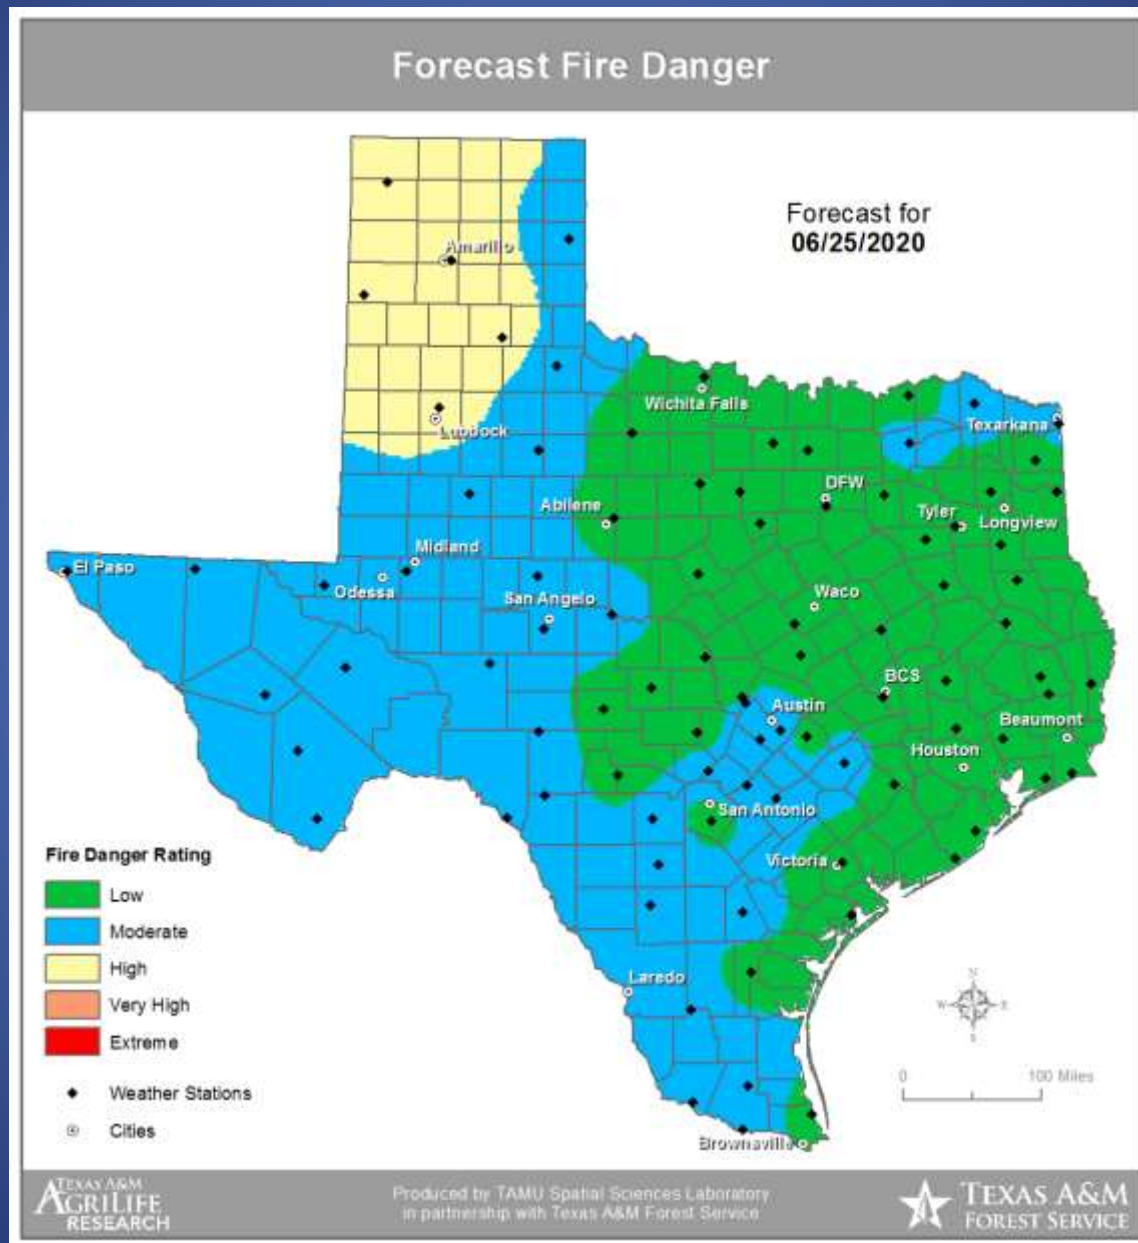

Temperatures will creep closer to normal this afternoon with highs ranging to the mid and upper 80s to lower 90s. With a low pressure center still lingering across Southeast Texas, showers and a few storms will again be possible in the southeast zones, especially this afternoon. Severe weather is not expected, but a few strong storms may produce heavy rain and frequent cloud-to-ground lightning.

Weather Warning/Advisories Issued

DATE	WARNING TYPE	LOCATION
06/24/20	Severe Thunderstorm Warning	Brooks, Duval and Jim Wells Counties
